IMPORTANT NOTES:

* GRAPHIC PANELS: DO NOT send individual files for each panel; One image for entire display. We will tile the artwork on our system to form the separate panels. A minimum of 100 dpi at full size. Please keep in mind this display has seams; if you do not want an image or text to cross over a seam do not design it that way. We suggest you nudge text over to avoid seams if possible.

* If you have any doubts about what we need for a file, please contact us before designing your artwork. We are here to help.

Please Note:

If artwork is not setup at the correct size and DPI, there will be additional charges to correct artwork.
