

Choose to use on a table as a poster size stand or display in a large way and tower over your competitors!

Which way are YOU going? Up, down, left, right...

Direction...

Point client's in YOUR direction with our MultiMaster banner stand. With the capabilities of towering higher than the standard 8' tall display, you will be seen. Able to stand at an amazing 10' tall - just a peek above the rest will make them say, "Who is that?".

It isn't called "Multi" for nothing...

Changeable, adjustable, lightweight and easy to set up. Available in single or double sided packages, the choice is yours! The "SnapLock BannerRail" system will work with virtually any banner material. And even better, without any pole pockets, grommets or double face tape. Snap open, easy install, easy change! Easy stand set up - No tools required! As a one piece unit, the MultiMaster is a snap to set up with bungeed stabilizing feet and the telescoping pole already houses the top and bottom banner rail plates. How many banners do you need? Doesn't matter with this stand - use one stand with unlimited banners! Need different banner sizes for multiple applications? The MultiMaster has available widths of 22", 36", & 46" and a telescoping pole allowing you to choose the height all the way up to 10' tall. And, it all fits in an easy to travel bag with rigid insert. All aluminum components weighing only 13 lbs. Pack'm up carry and go!

Also, did we mention...

A 10 Year Manufacturer Warranty! With a 10 Year Warranty on the stand components, you know the Multi-Master banner stand is built with quality components. Where are your client's headed? Order today and they will head in your direction with our Multi-Master banner stand.
