

# LED UNIVERSAL LIGHT CLIP ATTACHMENT

Item #LTSTLED

Slide Universal Light Clip into light.

Hook the back-side of the clip under the pole in the rear, allowing the pole to seat in the groove of the clip.

Hook the back-side of the clip under the pole in the rear, allowing the pole to seat in the groove of the clip.

The clip should lay flat when installed correctly. It maybe necessary to slide left to right to ensure the clip is seated correctly.

**PLEASE NOTE:** The Universal Light Clip and light can only be put on the display once the display is set up.
