

RETRACTABLE BANNER STAND

30 second set up and within budget

Boost Series

Our Boost Retractable Banner Stand is an affordable banner display solution offering great visual impact with a brilliant full color printed banner.

Its budget friendly price tag will allow you to purchase more than one unit to fill your booth space. Purchase one unit for the smaller shows, two units for 6ft show spaces, three units for 8ft show spaces or create a whole backdrop with four units in 10ft show spaces.

Plus... design your banner for both floor or table top uses! Pull up the top 52" of the banner and place the unit on a table.

You'll be pleased with how much space you can fill and all within budget. Included with each Boost banner stand package is a custom printed fabric graphic, corded 3-section aluminum pole and soft padded carry bag for easy transport.

✓ In-House Graphic Printing of your banner
