**Modular SEG Fabric System**

# THE NEXT BIG THING IN MODULAR DISPLAYS

## The Best of Both Worlds

NEXT!™ Modular SEG Fabric System is truly the best of both worlds. Combine the upmarket taut graphics of custom SEG extrusion systems with the lightweight, no tools, ultra portable world of pop-ups.

## Truly Modular

NEXT!™ doesn't stop there. A truly modular system, NEXT!™ combines frames in many different ways to accommodate 10ft. 20ft. 30ft. in-line spaces, or 20x20ft. and larger Islands. Create endless back drops and privacy covers for events with a clean continuous image and professional presentation - all with no tools and easy set-up. Displays can be connected next to each other, on top of each other and at 90 degree angles. Add counters and combine different size frames and lights to create powerful exhibits and pop-up interiors.

## The Best SEG Graphics

Don't settle for lower quality 4 and 6-color SEG graphics. With NEXT!™ Modular SEG Fabric Systems, your graphics will be printed HD Grand Format 8-color, sewn and finished to perfection by professionals. Our special fabric is FR coated and when installed, the taut graphics have just enough stretch to pull out typical fold lines.

**NEXT! 3ft Display**

### Frame Specs

3ft Component

Open Dims: 30" x 88" x 13"

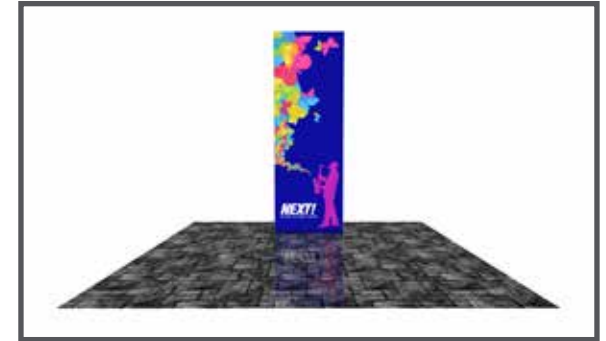

Closed Dims: 3" x 7" x 32"

### Weight

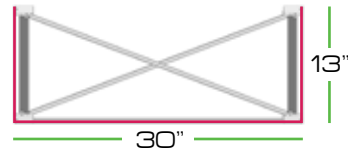

3ft Component - 17lbs

### Graphic Specs

3ft Component - Print 56.9375" x 88.8122" / Live 56.1875" x 88.0625"
